

Synovium® Linseed Oil

INSTRUCTIONS

Introduce to the horse's diet gradually for the first week.

Horse: add 60 ml to the feed daily

Pony: add 30 ml to the feed daily

Not suitable for foals

1 litre bottle = 17 supply days. (76p per day)

5 litre bottle = 84 supply days. (51p per day)

Linseed Oil nourishes the horse from the inside out. A rich source of Omega 3 (an essential fatty acid) for optimal skin, coat, digestive, respiratory & joint health.

Our cold pressed Linseed oil is an 100% pure oil, derived from the first pressing. It supports metabolism whilst contributing to the optimal functioning of the stomach and intestines. Ideal for horses who easily loss condition.

Natural oil is a safer form of energy for horses than cereals which are high in starch. Cereals can be harsh on the hindgut causing discomfort and resistance. Whereas the horses gut can extract nutrients from pure oils much easier.

Omega 3 has shown to support horses with Equine Asthma Syndrome.

The ingredients of this product are not listed on the FEI Clean Sport prohibited substance database list.

COMPOSITION

Cold pressed linseed oil derived from the first pressing.
