

# Synovium® MSM Optimal-C

## INSTRUCTIONS

**Horse:** add 1 level scoop per day to feed. (Approx 5 week supply)

**Pony:** add ½ scoop per day to feed. (Approx 10 week supply )

Not suitable for foals.

**1.5kg Tub = 38 supply days. (£1.28 per day)**

**MSM OPTIMAL-C** supports faster recovery of muscles, soft tissues, joints & hooves. Featuring a source of organic sulphur, as found in the horses' natural diet, Methyl sulphonyl methane (MSM). Furthermore, MSM is easily absorbed by the horse, which is vital for use of vitamins & nutrients.

In addition to the high level of biologically available sulphur, Synovium MSM Optimal-C contains vitamin C. As a result, the Vitamin C helps strengthen the effectiveness of MSM.

MSM for horses is also a powerful antioxidant which helps boost the immune system and supports healthy skin & coat condition.

- Pure MSM for horses with added Vitamin C for optimal results.
- Supports muscles, soft tissues, joints, hooves, skin & coat condition.
- A powerful antioxidant which helps boost the immune system.
- Supplies bio-available sulphur for improved circulation
- Provides 13g of MSM & 4000mg Vitamin C per daily dose
