1kg Tub = 66 supply days. (£1.37 per day)

MYOBUILDER is an advanced muscle building supplement for horses, developed for the athlete who is in the build-up phase of training. Carefully formulated by our leading vets, none heating and competition legal muscle builder.

The combination of natural muscle proteins, L Carnitine and Gamma Oryzanol makes faster muscle building possible. Myobuilder is an all-round muscle supplement supporting bone and muscular development. Silicon is an important element required to maintain healthy bones, tendons, and ligaments in the horse. Correctly developed muscles will help keep a horse healthy and give strength to the total body configuration.

The muscular system is extremely important for the proper functioning of the horse. Having a powerful muscle mass can help prevent injuries by supporting the skeleton and joints.

The ingredients of this product are not listed on the FEI Clean Sport prohibited substance database list. Take into account the applicable rules of your federation during competitions
