

Synovium® Biobute

INSTRUCTIONS

* Measuring scoop = 7 grams

Horse: add 2-3 scoops per day to feed. (Approx 10 week supply = 97p day).

Pony: add 1-1 ½ scoop per day to feed. (Approx 20 week supply = 48p day).

Not suitable for foals.

BIOBUTE is a natural supplement, consisting of a combination of natural plant products. Including harpagophytum (Devil's claw). Our unique mix supports anti-inflammatory properties to help support joint, muscle, tendon and ligament health including in the older horse.

Devils Claw – Believed to be a natural anti-inflammatory. It is often used as a natural replacement for Bute.

Turmeric – Thought to provide powerful anti-inflammatory and antioxidant properties. Suitable to support horses with stiff joints, irritated skin and to support a healthy digestive system.

Raspberry – Natural product that is believed to help regulate hormones in mares and support the GI tract.

Fenugreek – Highly palatable, supports condition, healthy digestion, and the immune system. Naturally rich in healthy fats, vitamins A, B, C, E and is highly nutritious.

Carrot & Mint – Natural flavouring

COMPOSITION

Combination of herbs such as Harpagophytum (devil's claw), Turmeric, and Fenugreek.
