

Synovium[®]

HORSE HEALTH

Leading Veterinary Equine Supplements

Synovium[®] Ginger + MSM Liniment

GINGER + MSM dual action horse liniment for muscles, joints and tendons.

Synovium[®] advanced veterinary gel helps keep muscles supple and supports better recovery for horses post exercise. The liniment first has a cooling and soothing effect, which helps in inflammation prevention.

After the cooling effect Ginger gives a warming and relaxing effect. The addition of MSM supports healthy muscle metabolism and the anti-inflammatory response. MSM provides many researched benefits when applied topical to a designated area.

A good liniment can help relax and soothe muscles after work, helping to prevent the development of stiffness and pain. Speed up recovery with increased circulation to support the tendons and ligaments.

A must have in every first aid kit .Easy to apply gel in 500ml or 1L

Composition

MSM	Ethanol
Ginger	Carbomer
Menthol	Water
Tea Extract	

Application

Apply a thin layer to the designated area. Wear gloves when applying the gel.
